

Spot the hidden signs of vision loss

Your child may be asking for help without saying a word. Our interactive vision wellness tool can help you read the hidden signals.

My head hurts
and I can't quit
rubbing my eyes
when I read.

Millions of kids have vision trouble — but it's not always obvious. This is a big deal when learning well means seeing well. You can spot the signs if you know what to look for. Squinting, eye rubbing, head tilting — if any of these common signs look familiar, it's probably time for an eye exam.
